How We Have Helped

Health & Human Services (HHS)/Centers for Medicare & Medicaid Services (CMS)
Wiltech has provided data architecture maintenance & operational support of the Enterprise Content Management (ECM) infrastructure, ECM application development and integration efforts, document and content management implementations for large federal government agencies.

Pension Benefit Guaranty Corporation (PBGC)
Wiltech has established processes and standards in support of Enterprise Data Model (EDM) and the Data Governance initiatives necessary to establish a data asset baseline, address and mitigate audit findings as well as ensure sustainability in the future for several federal government agencies.

Department of Homeland Security/U.S. Citizenship & Immigration Services (USCIS)
Wiltech has provided a full range of business and technical management services to assist in the development and implementation of IT products and services compliant with the Enterprise Architecture standards and policies, procedures, guidelines, and directives (e.g. EA reference models, Investment Review Process) for large federal government agencies.

Our People

While Wiltech's specialty is information management, it also understands the nexus between data, people, and processes. Therefore, Wiltech's approach to problem solving is a holistic one and one that strives to staff projects with well-rounded candidates that are committed to addressing information as an integral piece of the larger strategic enterprise mission and Software Development Life Cycle (SDLC) pie.

Our employees and associates abide by a short but very important list of principles:

1. We are committed to maintaining the highest level of integrity and honesty throughout all aspects of our business and within the communities in which we work.

2. We are always accountable for what we say and what we do.

3. We are here to please and delight our clients.

4. We are committed to a work environment that attracts, motivates, develops and acknowledges the individual and group performances of our employees and associates.

5. Open communication and Quality Assurance (QA) are integral aspects of every part of our business.
